[Download full feature demo click Here](#)

MovieCrawler allows you to download free movies from the internet by crawling a web page and extracting the movie links in it. Then it organized the results in a playlist that you can either save to disk or view the movies in the build in player. It supports the most standard formats : avi, mpeg, and wmv.

It's fast and convinient, you dont have to go trough web sites and pop ups...

The license cost for MovieCrawler is \$14.99 , and can be purchase at <http://store.mataluis.com>
